As a full-time designer I have never learned how to work with 2D design, not until Autocad. Autocad 2006, autocad 2007, autocad 2008, autocad 2009, autocad 2010, autocad 2011, autocad 2012, autocad 2013, autocad 2015, autocad 2016, autocad 2017, autocad 2018 and autocad 2020. Q: How to get another page for Back Button and Next Button in app I have been developing an android app with navigation Drawer activity and I need to get back button and next button in one of my fragments in app when the user press the back button or next button from each fragment it will go to the main menu which is in MainActivity if I press back button it will go to the menu and go back to my current screen which is drawer Activity I need to get those two buttons in one of my fragment how do I do that? the relevant code for activity is import android.support.v7.app.ActionBarActivity; import android.support.v7.app.ActionBar; import android.support.v4.app.Fragment; import android.support.v4.app.FragmentManager; import android.app.ActionBar; import android.app.ActionBar.Tab; import android.app.ActionBar.TabListener; import android.app.FragmentTransaction; import android.support.v4.app.FragmentTransaction.MakeFragmentTransaction; import android.support.v4.view.ViewPager; public class MainActivity extends ActionBarActivity implements NavigationDrawerFragment.NavigationDrawerCallbacks { /\*\* \* Fragment managing the behaviors, interactions and presentation of the navigation drawer. \*/ private NavigationDrawerFragment mNavigationDrawerFragment; /\*\* \* Used to store the last screen title. For use in {@link #restoreActionBar()}. \*/ private CharSequence mTitle; @Override protected void onCreate(Bundle savedInstanceState) {
