awesome action and swashbuckling adventure, great music from the likes of hans zimmer, good visuals and johnny depps hilarious improvisational performance as captain jack sparrow (the other performances are good as well but depps the highlight and you damn well know it) make the first pirates of the caribbean adventure a fun action flick thats not only a great first non-touchstone/hollywood pictures/pre-2006 miramax & dimension pg-13 disney movie but also a much better movie than a movie based off of a theme park ride has the right to be. swash and unbuckle. in 1763, the caribbean is awash in pirates. the worst is stagnetti, backed by his bloodthirsty first mate, serena. he wants the scepter of inca, which gives its owner great powers. to remove it from remote calaveras island, he needs the dagger of ataljuapa as well as the aid of a descendant of the family to whom the scepter was entrusted. so, he kidnaps manuel valenzuela, honeymooning with the lovely isabella. the first pirates of the caribbean movie was a very low budget movie (it was the first movie filmed using 3d, and the 3d scenes were pretty good, but they could have been better) that was released in 2006. it was also a disney movie, which is the first disney movie not to be a touchstone pictures movie (which would be the lion king) but was released by miramax (which would be the lion king 2). this movie is also the first disney movie to be rated pg-13. the movie had a decent rating of 7.3 on imdb and is the first disney movie to have a sequel. when the movie was

released in 2006, it was a very good movie, but was not as good as the first one, but still very good. it was also the first movie to be released in imax 3d. it's not as good as the first pirates movie, but still a very good movie.
